ServEase

Seamless Service Booking with Servease[[link](#)]

1. Project Overview

Date: March 23rd, 2025

Team Members:

Atharva Dixit(24BCE10677) - Team Lead
Diva Chandra(24BSA10066)
Rudra Narayan Mishra (24BCE10780)
Aditya Kumar(24BCE10074)

Problem Statement:

Service & Appointment Management

- Scheduling and managing appointments for service-based businesses
- Providing an online platform for booking home services
- Aggregating verified home service providers for easier bookings

Solution:

Our platform connects homeowners with verified service providers through a centralized booking system. Users can search services, view provider profiles with ratings, and schedule appointments instantly. Service providers manage their availability and client interactions through a dedicated dashboard. The system eliminates scheduling conflicts while expanding business opportunities for professionals and saving time for customers seeking reliable home services.

Target audience: Service providers and Customers

2. Features & Functionality

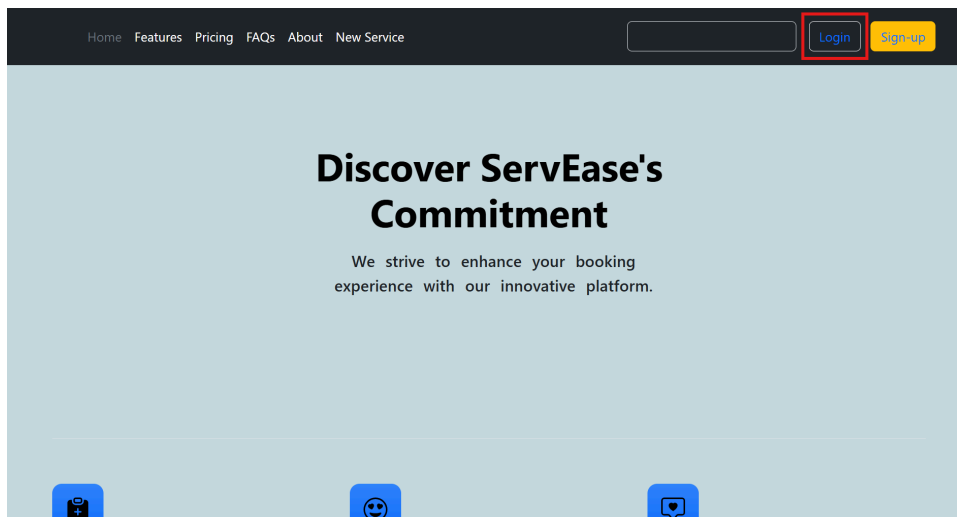

Core Features:

- Booking System
- Service Provider Registration
- Live Calendar
- Real-Time Email Response
- Email Based Service Reminder
- User/Service Provider Login
- Customer Ratings
- Location based Service

3. Working

a) For Client

Atharva wishes to get his lawn mowed. He got to know about a cool website- ServEase- and proceeded to book a service appointment from there. This is the home page he encounters. He clicks on the login button.

He gets redirected to the website's login page. But since Atharva is a new customer. He clicks on "Create Account" and creates his new ServEase account.

Now, Atharva scrolls down the website. He checks for availability on the calendar and clicks on “Book Now”.

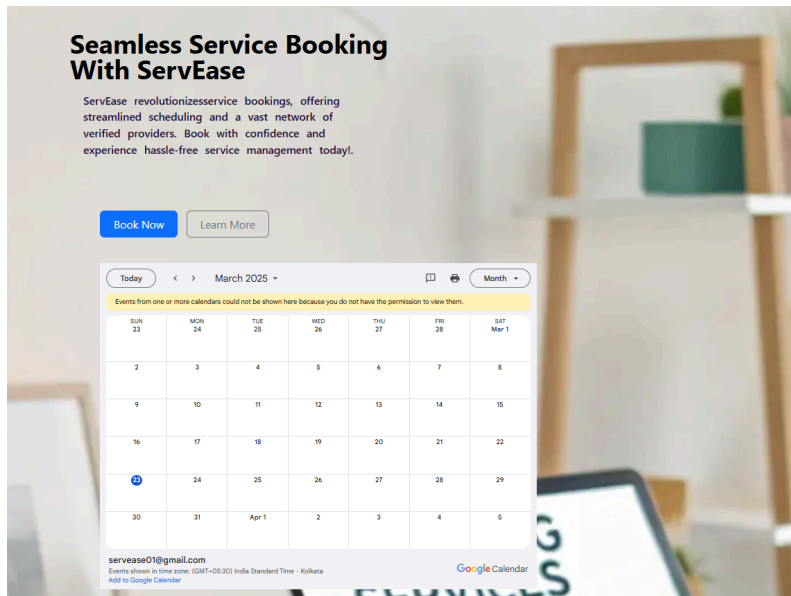

Fig- Service booking via ServEase website

He is then redirected to User registration form where he selects “Lawn Maintenance” on “24th March,2025” from “ 4:00P.M. - 5:00P.M.” and proceeds to pay the amount.

The image shows a Google Form titled "User Registration" for the ServEase service. The form is divided into several sections. The first section has a header image of a modern building at night, followed by the title "User Registration" and the contact email "servease01@gmail.com". There is a "Switch account" link and a note about Google account integration. The second section is for "Service Needed" with radio button options: "Appliance repair (200 Rs)", "Home cleaning (300 Rs)", "Lawn maintenance (200 Rs)" (which is selected), "Electrician services (200 Rs)", "Full service Car wash (100Rs)", and "Option 6". The third section is for "Enter the preferred date:" with a date picker set to "03/24/2025". The fourth section is for "Enter the preferred time:" with a dropdown menu set to "4:00 PM - 5:00 PM". The fifth section is for "Enter the address for service delivery:" with the text "Hyderabad" entered. There are also fields for "Email" and "Name" at the bottom, with a checkbox for "Record [redacted] as the email to be included with my response".

b) For Service provider

Aditya is a professional lawn maintainer. He wishes to provide his services. His friend, Rudra, suggested him about ServEase which enables service providers to directly manage their availability and client interactions through a dedicated dashboard. He clicks “Add Services”.

And gets redirected to Service Provider Registration where he applies his expertise in the form.

The image shows a Google Form titled "Service Provider Registration". At the top, there is a header image of a modern building at night. Below the title, there is a "Switch account" link and a cloud icon. A note states: "The name, email, and photo associated with your Google account will be recorded when you upload files and submit this form". A red asterisk indicates required questions. The form has two visible sections: "Email *" with a checkbox to "Record [redacted] as the email to be included with my response", and "Name *" with an empty text input field.
